Webinars – train professionally

You would like to train employees, business partners or customers or inform them about new products? No problem with a webinar: Time-consuming appointments and long-term travel planning are passé - GTC central-meeting makes it possible! And this **without monthly fixed costs** and **without fixed purchase quantities**: only if you run a webinar, you will incur costs.

With just a few clicks, prepare your webinar. Via the automatically generated registration form all participants can easily register online – without any effort for you! To the webinar beginning, you can safely access your webinar with one click and your access code.

You can upload and use prepared presentations for your webinar – or even share your screen with the participants and show for example new programs live. Guide through the webinar by telephone – your participants have the option between listening via telephone or audio streaming directly on the PC.

Your advantages

- + No investment and no installations
- + Easy preparation and implementation
- + Online customer area with many features

central-meeting

Webinar – so easy

- + Create your webinar online with just a few clicks
- + Define your own form fields for the registration process yourself
– the form is generated automatically
- + You can use the login link exactly as it fits your webinar: send it by e-mail, link it to your website or share it on social networks – the registration process runs fully automatically
- + At the time of the webinar you will show your presentation online – your participants see and listen to you directly via web browser on their PC, tablet or smartphone

Your Features

- + **Share your screen:** Show your participants programs that only runs on your computer
- + **Whiteboard feature:** On a „whiteboard“ you, as well as all other participants, can enter texts, images and graphics and access them at the same time
- + **Live chat** with single or multiple participants
- + **Video conference** – show a live image of your speaker
- + **Optional:** participation of participants via conference call
– for the purpose, inform the participants of a dial-in number and the associated code by e-mail
- + **Lock the webinar:** exclude individual participants
or block the registration automatically if there are a certain number of applications
- + Overview of all participants
- + **Video recording** of the webinar
- + and many more
